Immokalee High congratulates Class of 2021 graduates

By Danika Fornear
Lake Okeechobee News

Immokalee High School celebrated the graduation of 396 seniors in the Class of 2021. The school year was challenging, especially starting the year with half the students on campus while the rest were remote learning. Students struggled with the anxiety of the unknown related to the

pandemic, as well as unemployment, and the loss of friends and family members to COVID-19. Also due to the pandemic, volunteer hours were limited this year compared to other years.

The Immokalee High School's Class of 2021 has earned \$6.1 million in scholarship funds to continue their post-secondary education. While plans vary by student,

many will be attending universities, colleges, and technical programs, while some have chosen to serve our country by enlisting in the military. Approximately 162 students have made it known of their acceptance to continue post-secondary education. Venturing far and wide some of these students are bound for Harvard, Duke, and Notre Dame, while others have chosen to

stay closer to home and attend Florida Gulf Coast University, Florida SouthWestern State College, and Immokalee Technical College. Last but not least, a number of students entering the military, approximately three students have earned ROTC scholarships to attend post-secondary schools.

Congratulations to the Graduates!
