83 recognized during 2022 Immokalee Foundation Graduation Celebration

39 seniors and 44 postsecondary students celebrated their achievements during the May 12 ceremony.

SPECIAL TO IMMOKALEE BULLETIN

IMMOKALEE — The Immokalee Foundation celebrated their graduating class of high school seniors and postsecondary students at their annual Graduation Celebration on May 12.

“At our core, The Immokalee Foundation is all about education—preparing a group of exceptional young men and women to excel in the professional world that lies before them — by putting them on paths to success,” says Noemi Y. Perez, president and CEO of The Immokalee Foundation. “Watching our students grow into young professionals and being able to recognize them for their achievements is so rewarding.”

Through emphasis on education, career readiness and professional development, 100% of Immokalee Foundation students graduate from high school, 100% of Foundation students have a postsecondary plan for a professional career, and 92% of Foundation students graduate with an advanced postsecondary certificate or degree.

The graduating class of 2022 features 39 Immokalee High School students, seven graduates from the Heavy Equipment Service Technician (HEST) program at Immokalee Technical College (iTECH), and 37 graduates from colleges and universities throughout the country.

This year’s graduating class of 39 seniors from The Immokalee Foundation achieved an average GPA of 3.51 and combined have earned over 414 college credit hours during their high school career to be applied towards their degree programs.

One graduating high school senior, Kenya Miller, has accrued enough college credits to graduate with an Associates degree from Florida SouthWestern State College prior to graduating from high school.

The Foundation’s graduating seniors are not only high achieving in academics, but have also given back to their community in strides, averaging 424 volunteer hours donated during their time in high school. Seventeen of the graduating seniors have been a part of The Immokalee Foundation’s programs since they were in middle school.

The seven graduates from the HEST program at iTECH have all accepted positions in high-profile organizations such as Kelly Tractor, U.S. Sugar and Great Southern Equipment. The Immokalee Foundation covers the cost of tuition, training tools, and equipment, and provides a counselor to guide students successfully through the HEST program. The two-year curriculum, administered at iTECH, creates a foundation of technical skills that prepares students to maintain, diagnose and repair heavy equipment systems.

Thirty-seven college and university graduates from a variety of schools including Cornell University, North Carolina Central University, Florida Gulf Coast University and several other institutions throughout Florida will return to The Immokalee Foundation to celebrate their achievements. For many of these students, they are the first in their family to receive a college degree. The college graduates have earned degrees in nursing, construction

management, music therapy, and elementary education to name a few, and The Immokalee Foundation alumni have accepted positions at companies such as RSM Global, Owen Ambes Kimball Co., Dynamic Edge Consulting, with one graduate returning to their hometown to teach at Immokalee High School.

“Our graduates from The Immokalee Foundation are in a position to become the leaders of tomorrow. Their strength of character and drive will take them far in life,” says Jerry Belle, Chairman of the Board for The Immokalee Foundation and mentor to a graduating high school senior. “I can’t wait to see what the future holds for this extraordinary group of young adults.”
